An exhibition by @Mondstern  
In his artistic work, Mondstern dedicates himself to free,  
open-source applications. His small,  
colourful, square images show the diverse  
world of apps from the F-droid Store  
or from the development platform Codeberg. With this,  
the artist sets an example for a self-determined  
digital world.

The artist would like to thank:

- F-Droid Limited and contributors
- Ciaran Gultnieks, who founded the F-Droid project in 2010
- Topio e.V., Berlin (1st exhibition since August 2020)
- KuRSiF, Dresden (this exhibition)
- dansup (Pixelfed), Canada
- Codeberg e.V., Berlin (Git hosting)
- Andreas Itzchak Rehberg for your tireless work for F-Droid, your own e-book server, your app lists...)
- Sylvia van Os, Netherlands, for your help with my own F-Droid icon pack "Mondstern Acrylic Icons"
- 

and all the others who can't be listed here now due to lack of space.

Thank you, thank you and thank you again.  
@mondstern
